

CSR Policy

Health, Safety and the Environment

Savannah Energy considers that to act in a responsible manner towards our stakeholders is critical to the success of our business. Savannah Energy is therefore committed to responsible operations in all aspects of its operations. The Corporate Social Responsibility Policy embodies the following commitments:

- Commitment to open, honest and long-term dialogue with our stakeholders, with an efficient consultation process and an operational grievance mechanism while maintaining the highest standards of ethical governance;
- To act as a good neighbour and strive to understand and respect local communities' rights, traditions, customs, culture and dignity while conducting our operations in a safe and responsible manner;
- Commitment for a positive socio-economic impact of all our operations in collaboration with local authorities and civil society while promoting inclusive growth for the local communities;
- Contribute to the sustainable development of neighbouring communities, with a focus on human, economic and social issues. Develop or help developing local infrastructures for the benefit of the people.
