

24 January 2017

**Savannah Petroleum PLC**  
("Savannah" or the "Company")

**Completion of 3D Seismic Acquisition**

Savannah Petroleum PLC ("Savannah") is pleased to announce the completion of 3D seismic acquisition over a c.800km<sup>2</sup> portion of the R3 license area, approximately two weeks ahead of schedule and on budget.

The data acquired will now be processed and interpreted, with further updates being provided in due course.

**Andrew Knott, CEO of Savannah Petroleum, said:**

*"I would like to thank the Savannah operational team and our contractor, BGP Niger SARL, for their hard work and efforts in safe and successful delivery of this large 3D seismic survey. With this now complete, we look forward with great excitement to moving into the drilling operations phase on our Niger project."*
